Information Management: A Proposal

Titel	Information Management: A Proposal
Publicatietype	Divers
Publicatiejaar	1999
Auteurs	Berners-Lee, T. [1]
Publicatiedatum	03/1989
Uitgever	CERN
Plaats uitgave	Geneve
Taal	EN
RefMan	5695

Samenvatting This proposal concerns the management of general information about accelerators and experiments at CERN. It discusses the problems of loss of information about complex evolving systems and derives a solution based on a distributed hypertext system.

A hand conversion to HTML of the original MacWord (or Word for Mac?) document written in March 1989 and later redistributed unchanged apart from the date added in May 1990. Provided for historical interest only. The diagrams are a bit dotty, but available in versions linked below. The text has not been changed, even to correct errors such as misnumbered figures or unfinished references. This document was an attempt to persuade CERN management that a global hypertext system was in CERN's interests.

Aantekeningen Over de aanzetten van het world wide web (WWW) zoals we het nu kennen. Oorspronkelijke tekst is van maart 1989, de bewerking is uit mei 1990.
